

TC15 TRUCK CLEANER FOOD

Properties

- TC15 Truck Cleaner Food is elaborated for the cleaning of refrigerated insides and also for all containers of food commodities.
- Its foaming action facilitates cleaning in depth and removes all types of food residues.
- Versatile, TC15 has been studied to be used in the food industry (containers, refrigerated warehouses and carriers of food commodities, slaughterhouses, silos, restoration, canteens, collectivities, bakeries, covered markets, warehouses in general, smokehouses, places and public transportation, schools, hospitals, sanitary sectors, swimming pools, soiled floor-coverings, etc).

Instructions for use

- Pulverization: Mix a dilution with water between 2 and 5%. Pulverize the vehicle from bottom to top and let act about 2 minutes. Then rinse with high pressure. For very dirty vehicles, you can mix dilutions with water up to 10% and then use it as previously described.
- Foaming unit: Usable in all foaming devices. Dosage varies according to the device (consult our technical service).
- High pressure: Dosage at the nozzle exit must vary from 0,5% to 2%. Can be used with cold water, but we recommend a temperature between 40 and 50°C, this will increase the washing quality.
- Portal carwash: To regulate the dosage pump please consult our technical service.
In any case, rinse always with clear water.

Precautions of use

- Never apply the product in the direct sunlight.
- In pulverization, humidify previously hot or drab surfaces to treat.
- Never let dry the product on the surfaces to be cleaned.
- In case of strong concentrations, 10% for example, it is necessary to make sure that the materials are resistant. R38: Irritating to skin.
- R41: Risk of serious eye damage.
- S2: Keep out of reach of children.
- S23: Do not breathe vapour.
- S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- S46: If swallowed, seek medical advice immediately and show this container or label.
- S51: Use only in well ventilated areas.

Technical specifications

- Physical state: light yellow liquid.
- PH: 12,5.
- Density: 1100.
- Biodegradability: More than 90%, according to the "OECD Confirmatory Test".
- Composition: surface-active mixture, sequestration agents, alcohol, dispersion agents, perfume, water. Contains sodium and potassium hydroxyd < 5%.
- **FOOD NORMS: TC15 TRUCK CLEANER FOOD** answers the decree of October 27, 1975 of the ministry of agriculture concerning cleaning products being in contact with food commodities.
